

MEDIA RELEASE

WEEKEND LANE CHANGES ON THE BLUE WATER BRIDGE

In an effort to ensure traffic moves as efficiently as possible during construction on the U.S. plaza, the Michigan Department of Transportation, U.S. Customs and Border Protection and Blue Water Bridge Canada are asking U.S bound motorists to pay special attention to bridge signage.

Beginning Saturday April 14th and Sunday April 15th US bound NEXUS users will travel in the right (north) lane on the bridge and be processed through lane 13 (far right Customs Booth) on the U.S. side.

All other passenger vehicles will utilize the centre lane.

Trucks will remain in the left lane.

If the first weekend of these changes are successful then they will continue on Saturdays and Sundays between 8 am and 9 pm. until the construction is complete near the end of May.

Weekday operations will remain as they are now with NEXUS users in the centre lane and regular passenger vehicle traffic in the right (north) lane.
